- Innovation Committee
- Occupational health, safety and environment Committee
- Sustainability Committee
- Human Capital Committee
- Marketing Communications Committee
- Category 1: For yards building new seagoing vessels
- Category 2: For seagoing vessel repair yards
- Category 3: For yards active in inland shipping and repairs
- Category 4: For yards and suppliers in the superyacht industry

# This is Netherlands Maritime Technology

Netherlands Maritime Technology is a close-knit, successful network of shipyards, suppliers and service providers who work together to achieve the impossible in all locations and conditions. In the field of maritime technology, these companies – large and small – are always one step ahead in the quest for new challenges and solutions.

Based on a shared pride and passion for the trade, the office organisation underpinning Netherlands Maritime Technology goes the extra mile to facilitate the work of the network in every

way possible. Netherlands Maritime Technology serves the interests of the network, provides professional project support, and carries out independent research wherever necessary. There is a particular focus on issues linked to trade, innovation and human capital.

Together, we help ensure that the Netherlands maritime technology sector remains strong and innovative, and continues to blaze a trail for the rest of the world to follow.

**Together, we help ensure that the Netherlands' maritime technology sector remains strong and innovative, and continues to blaze a trail for the rest of the world to follow.**

## Shared interests

Primarily, the network promotes the collective interests of its members. This includes:

- Influencing regulations
- Attracting funds for the sector
- Influencing the political agenda in The Hague, Brussels and London (IMO)
- Securing a level playing field, including addressing trade obstacles
- Placing financing and guarantee issues on the agenda
- Advocating innovation stimulation by the government
- Reinforcing the sector's positive image
- Promoting good maritime education
- Attracting young people to the sector

These issues have a major impact on your company and can only be properly addressed via a sector-based approach.

## Individual interests

In addition to the collective interests, we also address the individual interests of all member companies:

- Export promotion
- Worldwide market information
- Collective trade show participation and trade missions
- Detached posts in foreign markets
- Promoting innovative chain cooperation
- Initiating and managing Dutch and European innovation projects
- Organising innovation seminars on technical issues
- Additional training courses for maritime professionals

## And there's more...

- A complete maritime network with over 55 member events each year
- Professional project support
- Sales, purchasing and yard terms & conditions
- Discount on participation in public Netherlands Maritime Technology events
- Advice on working conditions, finance, human capital, innovation, international business, legal issues, the environment, government contracts, public relations, regulations and statistics
